

| 11.13.금 | Room 1 | Room 2 | Room 3 | Room 4 | 비고 |
|-------------|--|--|--|--|-------------|
| 7:30-8:30 | Craniofacial Session 1 Functional Outcomes of Cleft Surgery 좌장: 백종민, 남승민 1. Outcomes following palatoplasty in patients with syndromic cleft palate - So Young Lim (Sungkyunkwan Univ.) 2. Outcomes of a Superiorly-based Pharyngeal Flap for the Correction of Velopharyngeal Dysfunction - Yong Chan Bae (Pusan National Univ.) 3. Current practices of speech-language therapy in cleft patients Hee Won Moon (Severance Hosp., Speech Therapy Clinic) | Basic Research Session 1: 첨단재생바이오테크 좌장: 손대우, 허창영 1. 박재성 CT0 (엑소좀 플라스) 2. Combined advanced medicinal product 김태욱 대표 (케이자바이옴) 3. Trend of prosthesis as a medical devices in concept of tissue regeneration 김경주 박사 (메디랩) | Challenges in Breast Reconstruction 좌장: 김영석, 서보미 1. Aesthetic consideration for breast reconstruction (기재) Gregory Evans 2. Jian Farhadi (Guy's and St. Thomas' Hospital, UK) 3. ERG in Autologous Breast Reconstruction Christian Bonde (Denmark) 4. ALQ Breast Implant Registries Hinne Rakhorst (Netherlands) | Reconstruction of the Lower Extremities 좌장: 최영훈, 문경환 1. Innovations applied to limb reconstruction Nicolas Pereira (Chile) 2. Predictive factors for limb salvage and foot ulcer recurrence in patients with critical limb ischemia after intensive treatment with a multidisciplinary team Miki Fujii (Japan) 3. Nedhal Abdulah Alqumber Fungal induced partial necrosis of tensor fascia latae free flap used to reconstruct a complex hind foot defect secondary to landmine injury with complete loss of the calcaneus and talus innovative modified functional reconstruction of the foot | |
| 8:40-9:40 | Craniofacial Session 2 Better, Faster and Safer: CAD/CAS in Craniofacial Surgery 좌장: 탁민성, 김동현 1. How to connect the Computer Simulation with the Real Surgery? - Jong Woo Choi (Univ. of Ulsan) 2. Is the Mirroring Technology Reliable in the Use of Computer Aided Design for Orbital Reconstruction? - Ho Seong Shin (Soonchunhyang Univ.) 3. Orbital Reconstruction Using Simulation Surgery in Orbital Fractures 김훈 (건양대) | Basic Research Session 2: Recent Trends of Stem Cell and Tissue Engineering (I) 좌장: 김우성, 전영준 1. Cartilage type-specific Tissue Engineering 이문아 교수님 (경희대학교) 2. 3D Bioprinting for Regenerative Medicine 삼진형 교수님 (한국산업기술대학교) 3. Engineering the biointerface: from stem cells to functional biomaterials 황용성 교수님 (순천향대) | Breast Reconstruction Techniques and Refinements 좌장: 임진섭, 전영우 1. Profunda Femoris Artery Perforator (PAP) Flap: An anatomical Study of the Correlation of the Perforators, the Accessory Saphenous Vein, and the Lymph Collecting Vessels and Clinical Applications of Lymphatic Vessels Preserving PAP (LPPAP) Flap Ryo Karakawa (Japan) 2. Diagonal Profunda Artery Perforator (dPAP) flap for breast reconstruction Robert Allan Jr. (Memorial Sloan Kettering Cancer Center, USA) 3. Combined SIEA and SCIP double pedicle flap (SaS flap) for breast reconstruction Tomoyuki Yano (Cancer Institute Hospital, Japan) 4. Hybrid breast reconstruction Arabi Momeni (Stanford University, USA) | Oncological Reconstruction 좌장: 김성환 1. Use of the Superficial Circumflex Iliac Artery Perforator Flap in Sarcoma Reconstruction Hidehiko Yoshimatsu (Cancer Institute Hosp. of the Japanese Foundation for Cancer Research, Japan) 2. Functional Extremity Reconstruction following Oncologic Resection Erin Brown | |
| 9:50-10:50 | SONGBAEK LECTURE 좌장: 노태석 Jeffrey Kenkel Advances in Body Contouring in the Massive Weight Loss Patient | Basic Research Session 3: Recent Trends of Stem Cell and Tissue Engineering (II) 좌장: 정호준, 이원재 1. SP-mediated tissue repair by immune modulation and endogenous stem cell mobilization 홍현숙 교수님 (경희대학교 동서의학연구소) 2. Engineering multi-cellular spheroids using biomaterials for bone tissue regeneration 신홍수 교수님 (한양대학교 생체공학부) 3. Facilitated Transdermal Therapeutic Delivery System for Skin Regeneration 황석연 교수님 (서울대학교 화학공학과) | Breast Reconstruction Preventing Complications 좌장: 남수봉, 이원재 1. Preventing Electrostatic Contamination of Breast Implants in Augmentation Mamoplasty - Prevention is Better than Cure Lee Seung Khoo 2. Common mistakes with perforator flaps for breast reconstruction and how to prevent them Eric Santamaria (Mexico) 3. Decision making in breast reconstruction: Up to date evolution Carlos Rodriguez (Argentina) | High Impact Presentations Head and Neck Reconstruction 좌장: 심형섭, 유희진 HIP-01 / 3D printed patient specific implant for head and neck reconstruction - Young-Soo Choi (Korea Univ.) HIP-02 / Facial reanimation using free partial latissimus dorsi muscle transfer: Single versus dual innervation method - Jinil Choi (Seoul National Univ.) HIP-03 / Full thickness skin graft according to surrounding relaxed skin tension line improves scar quality in facial defect coverage - Jeonghan Shin (The Catholic Univ. of Korea) HIP-04 / Is infraclavicular skin an effective donor for facial full-thickness skin graft? - Jae Seong Lee (Jeju National Univ.) SOP-01 / The use of topical lidocaine gel for anesthesia during intermaxillary fixation procedure in patients with mandible fracture - Jeeyoon Kim (The Catholic Univ. of Korea) SOP-02 / Application of an autologous rib cartilage graft in a complete Naso-Orbital-ethmoid complex fracture: A case report - Tae Wook Kim (Ajou Univ.) SOP-03 / Masseter nerve innervated free gracilis muscle transfer for incomplete facial palsy patients - Seongsu Joeng (Univ. of Ulsan) SOP-04 / Sequentially linked double flaps for complex head & neck reconstruction - Jung Hyeou Kim (The Catholic Univ. of Korea) | MOU Meeting |
| 11:00-12:00 | Craniofacial Session 3 The Surgery of Refractory Migraine Headaches 좌장: 윤인대, 백우열 1. Reasons to Consider Surgery in Migraine Woo Shik Jeong (Univ. of Ulsan) 2. Treatment update of chronic migraine Min Kyung Chu (Yonsei Univ., Neurology) 3. 김찬우 Temporal fasciotomy for temporal headache 4. Surgical Treatment of Migraine Headache 백우열 | Session 4: 기초연구 수행하기 좌장: 송승용 1. 김대우 교수님 (서울특별시보라매병원 이비인후과) - 연구계획서 형식적, 내용적 작성 Tip 2. 최승용 교수님 (서울대학교병원 영상의학과) - 임상연구를 잘 하는 방법 한국어 강의는 대외비 사항임. 한국어 강의, 영어 SCRIPT 전자 제공 좌장님께서는 연대가 필요!!! | Perineal Reconstruction 좌장: 김성환, 남궁석 1. Penile Reconstruction with pedicled anterolateral thigh flap and fathering 2 children Gordon K. Lee (Stanford University, USA) 2. Helsinki approach to phalloplasty - functioning phalloplasty, Austria 7시간 3. Moonshot thinking in Medical Education 박정철 Jung-Chul Park (단국대 차대) 4. Vulvar and Vaginal Reconstruction 김성환 | Reconstruction of the Thoracic Region 좌장: 김민기, 나은영 1. Surgically relevant anatomy 최세훈 (울산대 흉부외과) 2. Microsurgical Management of thoracic duct disorders Stephen J. Kovach 3. Reconstruction of the thoracic region 김민기 (울산대) | |
| 12:00-13:00 | Lunch | Basic Research Meeting | Lunch | Lunch | |
| 13:00-14:00 | Retirement Lecture 좌장: 김광석 김석환 My long journey of 42 years as a Korean plastic surgeon | Session 5: Current Peri-operative Issues of VCA 좌장: 권성택, 이상현 1. Jongho Kim (Seoul National University) : Donor and procurement related issues in vascularized composite allotransplantation 2. Jonghoon Hong (Yonsei Univ.) : Available time from brain death to donation in Korea. 3. Tae-Yul Lee : Abdominal wall transplantation pre-legislative process. 4. David Mathes: Current Status of Vascularized Composite Allograft Transplantation: Successes, Failures, and the Future | Teaching and Education 좌장: 박동하, 이준용 1. Meeting challenges of residency training in the US, empowering residents for success (Andrew Zhang, UT Southwestern Medical Center, Dallas, Texas, USA 14시간) 2. Defy Reality: Surgery and Education in 40 (Chieh-Han John Tzou, Vienna, Austria 7시간) 3. Moonshot thinking in Medical Education 박정철 Jung-Chul Park (단국대 차대) | Perforator Session 1 The Most Important Aspect for MY Functional Lower Extremity Reconstruction 좌장: 심형섭, 김수민 1. Lower Extremity Microvascular Reconstruction Stephen J. Kovach (Penn Orthopaedic Limb Salvage Center) 2. The longer the better: Limb salvage in DM foot - 서현석 (울산대) 3. The thinner, the better - 문석호 (가톨릭대) | |
| 14:00-15:00 | Craniofacial Session 4 Orbital and Sinus Fracture: New Approach of Facial Bone Fractures 좌장: 임남규, 신종원 1. Validation of Endoscopic Medial Orbital Wall Reconstruction - Baek Kyu Kim (Seoul National Univ.) 2. Medial Subbrow Approach for the Medial Orbital Wall Fracture with Subciliary Technique - Soon Heum Kim (Konkuk Univ.) 3. Orbital Restoration Surgery with Balloon Technique - Dong Hee Kang (Dankook Univ.) | Basic Research MASTER CLASS Multimedial techniques for functional modification to reduce silicone implant-induced contracture with adverse immune responses 허창영 교수님 | Preoperative Planning using Ultrasounds in Reconstructive Microsurgery 좌장: 정호준, 서영철 1. Andreas Kehrer (Regensburg, 7시간) Step by Step Guide to Ultrasound Based Design of Perforator Flaps by the Microsurgeon - Settings and Application 2. Dominik Walczak (Poland, 7시간) Ultrasounds in reconstructive surgery - I did it my way 3. Contrast enhanced ultrasonography assisted lymphaticovenous anastomosis 서영철 | Perforator Session 2 Overcoming Difficult Situations of the Diabetic Foot Reconstruction 좌장: 김연환, 임수현 1. Routine preparation and back-up plans for diabetic foot reconstruction 김동현 2. Practical considerations in diabetic foot reconstruction 최우명 3. Updates of Algorithm for Diabetic Foot Reconstruction 박창석 4. My challenging experience of diabetic foot reconstruction 김성환 | |
| 15:10-16:10 | Craniofacial Session 5 Trauma of Jaws: Consideration for Craniofacial Surgery 좌장: 전영준, 신효성 1. Reduction of Zygoma Fracture with K-wire - In Sik Yoon (Yonsei Univ.) 2. Difference Between Child and Adult in Craniofacial Fractures - Jee Hyeok Chung (Seoul National Univ.) 3. Consideration for Occlusal Relationship in Mandible Fractures - Kang Young Choi (Kyungpook National Univ.) | High Impact Presentations_Basic Research 나영찬, 박지홍 HIP 1. DNA methylation patterns of recurrences and prognosis samples in diabetic foot ulcers Kyu-II LEE (고려대) HIP 2. Cadaveric study of deep temporal fascia for autologous rhinoplasty grafts: Dimensions of the temporal compartments in Asians Seokye Lee (충남대) HIP 3. Influence of Mesenchymal stem cell-derived nanovesicles in vitro for cell rejuvenation Jongmin Han (연세대) HIP 4. Multi-Spheroid-Loaded Human Acellular Dermal Matrix Carrier Preserves Its Spheroid Shape and Improves In Vivo Adipose-Derived Stem Cell Delivery and Engraftment 이준용 (가톨릭대) OP 1. In vitro and in vivo evaluation of the effects of Panax ginseng extract on angiogenesis during skin wound healing: An explorative pilot study Kyu-II LEE (고려대) OP 2. Differential Expressions of MicroRNA in Hypertrophic and Keloid Scars Tae Hyun Park (경북대) OP 3. Bowen's Disease in an Aging City: A Multivariate Analysis Young Woong Mo (동국대) OP 4. Anti-Aging Properties of β -Lapachone: A New Research Target for Skin Nerve aging model Dooyoon Koo (고려대) OP 5. Therapeutic Effect of Amion Conjugated Chitosan-Alginate Membrane on Chronic Wound in Diabetes-Induced Swine Model: In Vitro and In Vivo Study Jamin Hong (계명대) OP 6. Zwitterionic Polydopamine Coatings Suppress Silicone | Hand Session: Upper extremity reconstruction 좌장: 김진수, 기세휘 1. Bauback Safa (California Pacific Medical Center, 샌프란시스코, 미국) The use of venous flaps in hand 2. Andrew Hart (Glasgow, 영국) DBAP Flap - vascularised bone transfer in hand & elbow 3. Reconstruction of the hand in Volkmann's ischemic contracture - Raju Sabapathy (Hand & Microsurgery and Burns, Ganga Hosp., India) 4. 이동환 (대한민국) Small free flaps for finger reconstruction | Perforator Session 3 Lymphedema 좌장: 김덕우, 박창석 1. My current approach to lymphedema treatment Peter Neligan 2. Recent ICG findings of the pathophysiology of lymphoedema and how they can refine current conservative management. Hiroo Sasaki (후쿠) 3. Next Level of Imaging Techniques for Lymphatic Supermicrosurgery Akitatsu Hayashi (Kameda Medical Center, Japan) 4. LVA in advanced stage patients (Changsik John Pak) 5. Lymph-Interpositional-Flap Transfer (LIFT): Any Skin Flap Can Be Used for Lymphatic Reconstruction Takumi Yamamoto (National Center for Global Health and Medicine, Japan) | |
| 16:10-17:10 | Craniofacial Session 6 "Smile Again" : Facial Reanimation 좌장: 강동희, 오태석 1. Novel Technique for Paralyzed Lower Eyelid Elevation: Supporting Midcheek Lift - Tae Suk Oh (Univ. of Ulsan) 2. Facial Reanimation Using Interfascicular Nerve Splitting of Innervated Partial LD Flap - Hak Chang (Seoul National Univ.) 3. Simultaneous Surgical Treatment for Smile Dysfunction and Lagophthalmos Involving a Dual LD Flap - Mutsumi Okazaki (Tokyo University Hosp., Japan) | QUEST NATION SESSION: TURKEY 좌장: 김광석, 최중우 1. The importance of the Nasal Valve Concept Selahattin Ozmen 2. Rhinoplasty Ersin Altun 3. Management of the deviated nose Kamburoglu 4. Tips and techniques for liquid rhinoplasty Ugur Anil Binoel 5. Sub-SMS Reconstruction of the Retaining Ligaments Ozan Bittik 6. Flexor Tendon Surgery Murat Sinan Engin 7. Mechanical extraction of stromal cells from adipose tissue in all aspects Eray Copcu 8. Savas Sereel Supermedial Pedicle Breast Reduction and Long Term Results 9. Akin Yuval Breast Reduction and Mastopexy with Prepectoral Advancement and All-Quadrants Supting Technique. 연자 10분씩, 9명 90분 MOU ceremony 이어서, 형식을 정해야 함. 참석자 명단을 받고 권한을 줘야함. <KOREA-TURKEY MOU CONFERENCE> | Hand Session Master Class 연자: 우상현 (방병원) 좌장: 황소민 (K성형병원) 연자: W Strategy in Congenital Hand Differences | Special consideration in burns 좌장: 고장훈 (한강수병원), 허준 (한강성심병원 외과) Jang Hyu Ko, Jun Hur 1. Pediatric burn treatment Hallym University Hangang Sacred Heart Hospital : Do Hern Kim 2. Chemical burn : Hydrofluoric acid(HF) treatment Hallym University Hangang Sacred Heart Hospital : Yong Suk Cho 3. Combination Treatment Utilizing Fractional Ablative and Continuous wave CO2 Laser for Hypertrophic Burn Scars Hangansoo Hospital : Jung Hwan Lee 4. The use of ACE-inhibitor and beta blocker to prevent ARDS in severe burns. Lisa Hasibuan | |
| 17:20-18:20 | Craniofacial Session 7 Head and Neck Reconstruction: Response to Challenge 좌장: 신영수, 김백규 1. Sequential Algorithm for Recurrent Head and Neck Cancer: A 10 Year Experience 백우열 (연세대) 2. Possible responses in unrepaired situations during Head and Neck reconstruction - Sae Hwi Ki (Inha Univ.) 3. Free-flap Reconstruction in Recurrent Head and Neck Cancer - 장용준 (강동성심, 한림대) | Social Media in Plastic Surgery 좌장: 홍준표, 김훈 1. Impact of Social Media in my Journey of INNOVATION 홍준표 2. Brand Yourself on Instagram 김광희 원장님 3. 크리스마스 성형외과 신상호 원장님 | High Impact Presentations_ Hand and Upper Extremities 좌장: 노시영, 김홍일 HIP-16 / Topographical anatomy of superficial lymphatic vessels of upper extremity for lymphaticovenular anastomosis - Ik Hyun Seong (Ewha Womens Univ.) HIP-17 / Hand reconstruction with SCIP flap: Versatile application over the past 26 years - Toshiro Mese (Fukuyama City Hosp., Japan) HIP-18 / A novel topographically enhanced synthetic biodegradable nerve conduit for peripheral nerve repair translated into humans - Ralph Murphy (Univ. of Manchester, UK) HIP-19 / Versatility of the posterior interosseous artery flap: Emphasis on powering up the toe-transfer - Dongyun Lee (Dongguk Univ.) HIP-20 / Fingertip reconstruction with subcutaneous island flap and subsequent composite graft composed of nail bed and volar pulp skin - Ilou Park (Gwangyeong Sungae General Hosp.) HIP-21 / Replantation and salvage period in single distal digit amputation comparison between k-wire and suture fixation - Won Jin Cha (The Catholic Univ. of Korea) HIP-22 / Transient ischemia of upper extremity following humeral shaft fracture - Hyun Myung Oh (Chonnam National Univ.) HIP-23 / Free flap for simultaneous multiple soft tissue reconstructions in the hand: A 10-year experience in 75 patients | MASTER CLASS (환상) 좌장: 문석준 Long-Term Surgical and Speech Outcomes Following Palatoplasty | |
| 18:20-19:00 | High Impact Presentations_Lower Extremities 김태근, 차한규 HIP-09 / Lymphatic flow velocity is a predictor for functional lymphatic vessels for lymphaticovenular anastomosis - Ji Won Hwang (Ewha Womens Univ.) HIP-10 / What is the Impact of Infrapopliteal endovascular intervention on free flap survival in DM foot reconstruction? - Jun Suk Lee (Ajou Univ.) HIP-11 / Lower extremity lymphedema: Supraclavicular lymph node transfer and lymphaticovenular anastomosis - Yongjae Hwang (Korea Univ.) HIP-12 / Timing of lower extremity free flap reconstruction after peripheral endovascular angioplasty: A systematic review - Taegyu Lee (Keimyung Univ.) HIP-13 / One-stage reconstruction with "Thin DIEP Flap" of large defects in extremities: Difference in surgical technique with breast reconstruction - Mi Kyung Lee (Ewha Womens Univ.) HIP-14 / Treatment of intractable chronic callosities in diabetic foot patients with Omega-3 rich wound matrix - Kyeong Soo Park (The Catholic Univ. of Korea) HIP-15 / Debulking surgery for lymphoedema - 15 years experience with liposuction - James Thomas Moghee (Ninewells Hosp., UK) | | | | |

| 11.14.토 | Room 1 | Room 2 | Room 3 | Room 4 |
|-------------|--|---|--|--|
| 7:30-8:30 | Seoul Breast Meeting 2020 Session 1 Lead talk - The Resurgence of the DIEP Flap in the USA: Factors, Reasons, and Outcomes Maurice Nahabedian 20m 임진섭 장학 Discussion: 이종호 진용식 한현호 전병준 | Blepharoplasty Session 1 김우섭, 이진규 Recently advanced surgical methods in primary double eyelid surgery a. Incisional double eyelidplasty c tarsal fixation 송경호 (프시즈 성형외과) b. Incisional double eyelidplasty c SAJT fixation 이승우 (강남닥터우 성형외과) c. How to make favorable parallel type of double fold in Asian 최문섭 (그레이트소앤영 성형외과) | Facial Trauma Session 1 Various interesting studies related to facial trauma 좌장: 임소영 남승민 1. Trigeminal somatosensory evoked potential test as an evaluation tool for infraorbital nerve damage 김지애 (원주기독) 2. Risk of Ischemia Stroke after a Facial bone fracture in elderly patients 계영대 성형외과 정운혁 3. Measuring success in craniofacial surgery with longitudinal psychosocial patient-reported outcomes measures Justine Lee (UCLA) | Minimally Invasive Surgery for Migraine and Chronic Pain Management 좌장: Saja Scherer, 정우식 1. Introduction: surgical anatomy and diagnosis of peripheral nerve injury or compression OR Minimally invasive surgery for pain control Saja Scherer 2. Surgical management of temporal headaches Ziv Peled 3. Surgical management of rhinogenic headaches 한승열 (DH 성형외과) 4. Direct approach for the management of Frontal Headaches Peter Chanwoo Kim 김찬우 (EFIL 성형외과) 5. Surgical management of Occipital Neuralgia Giorgio Petramaggiore 6. Approaches to iatrogenic and non-iatrogenic groin and testicular pain Shai. M. Rozen 7. Advances in targeted muscle reinnervation Ian L. Valerio (MGH, USA) |
| 8:40-9:40 | Seoul Breast Meeting 2020 Session 2 What is the currently hot topic in implant breast reconstruction? 노태석 강상규 Lead talk - 강상규 Discussion: John 김영석 정재훈 홍승은 | Blepharoplasty Session 2 최홍림, 최상문 Recent issues and correction methods in ptosis surgery a. Pitfall of non incisional ptosis surgery 한현호 (서울아산 병원 성형외과) b. Solution for different sized-eyes (overcoming Hering's law) 김민수 (연세 ENB성형외과) c. Correction of retracted upper eyelid after ptosis surgery 조인창 (BIO 성형외과) d. A Comprehensive Approach to Asian Upper Eyelid Ptosis Correction: the Levator Musculo-aponeurotic Junction Formula. CHIN HO WONG (W Aesthetic Plastic Surgery, Singapore) | Facial Trauma Session 2 Advanced techniques in the treatment of mandible fractures 좌장 이영일, 백우열 1. Advantages of plastic surgery in mandible fracture 배대희 (중앙대) 2. Subcondyle and condyle fracture 손정환 성형외과 남승민 3. The Use of Botulinum Toxin A to Prevent Postoperative malocclusion in Mandibular symphyseal fracture 분당서울대 성형외과 명유진 | |
| 9:50-10:50 | Keynote Lecture 좌장 : 윤을식 Challenges and Controversies in Modern Implant Breast Reconstruction John Kim | Blepharoplasty Session 3 김홍석, 최동일 Methods to produce the best results for correcting the aging upper eyelid. a. Surgical anatomy of the aged upper eyelid for achieving good result without complication. 최업 (최업 성형외과) c. Aging upper eyelid surgery and forehead lift. 탁우현 (태일라 성형외과) d. Aging upper blepharoplasty with subbrow lift. 변진석 (리더스 성형외과) | Facial Trauma Session 3 Issues in Pediatric Craniofacial Reconstruction 김순홍(건국대)/최종우(울산대) 1. Pediatric tongue-based airway obstruction: A multidisciplinary approach - Russell Reid(Univ. of Chicago, USA) 2. Curved line cheiloplasty in unilateral cleft lip patients - Tae Suk Oh(Univ. of Ulsan) 3. The treatment of black hole in velopharyngeal insufficiency: Combined overlapping intravelar veloplasty and dynamic sphincter pharyngoplasty - Seung Min Nam(Soonchunhyang Univ.) 4. Craniosynostosis - Byung Jun Kim(Seoul National Univ.) | Plastic Surgery in the Era of COVID-19 Training and Education 좌장 Donna Savitry, 한현호 1. Teaching and Learning Adaptation during COVID-19 Pandemic in Plastic Surgery Postgraduate Program Prasetyanugraheni Kreshanti (Indonesia) 2. Knowledge Revolution during COVID-19 Pandemic - International Microsurgery Club Webinar Series Cheyenne Wei-Hsuan Sung (Taiwan) 3. Covid-19 and Plastic Surgery Bernard Lee |
| 11:00-12:00 | Seoul Breast Meeting 2020 Session 3 Main Concerns in Augmentation Mammoplasty 좌장: 이백권, 임종혁 Discussion: 김한조, 황동연, 이훈주 1. Comparison between axillary and IMF approach 2. Strategy for prevention of Implant malposition 3. Fat grafting in augmentation mammoplasty | Blepharoplasty Session 4 조인창, 김민수 How to manage the lid-cheek junction in lower blepharoplasty a. Modified method of midface lift in lower eyelid surgery for Asian. 고한중 (광복 성형외과) b. Dual plane approach for tear trough deformity that is difficult to correct. 송승환 (충남대병원 성형외과) c. Several factors to consider for a successful SOOF Lift. 최홍림 (JW 성형외과) | Facial Trauma Session 4 The optimal solutions for minimal post-traumatic sequelae 좌장 김용하, 윤인식 1. Gunshot caused mouth floor defect using a nasolabial flap and a de-epithelialized VY advancement flap 황건 (인하대) 2. Correction of post-traumatic enophthalmos with anatomical absorbable implant and iliac bone graft 최중윤 (가톨릭대) 3. Ipsilateral transnasal medial canthopexy for treatment of delayed post-traumatic telecanthus Han-Tsung Liao (Chang-Gung Hospital) | Plastic Surgery in the Era of COVID-19 Practice and Safety 좌장 최문섭, 서보미 1. Changes in private practice due to COVID-19 최문섭 2. Continuing charity surgery during a pandemic Donna Savitry (Indonesia) 3. Sustaining a safe clinical environment at secondary and tertiary centers 정영진 (강원대) |
| 12:00-13:00 | Lunch / General Meeting of KSPRS | | | |
| 13:00-14:00 | Seoul Breast Meeting 2020 Session 4 Managing Complications of Augmentation Mammoplasty 이흥기, 이종호 1. Correction of implant malposition 조정목 2. Updates in BIA-ALCL (Management of explanted capsule) 이종호 3. Prevention and management of double bubble deformity and animation deformity 구현국 | Blepharoplasty Session 5 이은정, 이태일 Lagophthalmos of upper eyelid 1. Evaluation of upper eyelid lagophthalmos and related anatomy 김연준 (JW 성형외과) 2. Double eyelid surgery for tear trough deformity that is difficult to correct. 송승환 (충남대병원 성형외과) 3. How to reduce the chance of lagophthalmos during upper lid surgery. 홍성표 (BIO 성형외과) | Facial Trauma Session 5 Collaboration in panfacial fracture treatment 좌장: 최강영, 황재하 1. Benefits of collaboration in panfacial bone fracture 백우열 (연세대) 2. Experience of complication and difficulty 손경민 (조선대) 3. Sequencing of reduction of panfacial fracture 최종우 (울산대) | Fat and Stem Cells Session 1 Liposuction 성낙관, 하성윤 1. Use of Tranexamic Acid in Liposuction 황동연 (나사성형외과) 2. Use of Bupivacaine for Longer Effect and Lidocaine Allergy in Liposuction 박동권 (아몬드 성형외과) 3. To optimally perform body contouring procedures 윤상열 (실루엣 성형외과) |
| 14:00-15:00 | Seoul Breast Meeting 2020 Session 5 Special Issues in Breast Surgery 윤원준, 김결희 1. Technical Refinements of the Augmentation Mammoplasty : Muscle Division Technique 차규호 2. Controversies in implant pocket plane : Augmentation 김국현 3. Chest masculinization surgery in female-to-male transgender patients 김결희 | Blepharoplasty Session 6 홍성표, 고한중 Solutions for problems after blepharoplasty a. How to manage functional problems after multi-operated upper blepharoplasty. 김홍석 (오킴스 성형외과) b. Customized high fold correction method according to each patient's condition. 이진규 (Aby성형외과) c. Importance of gliding plane for secondary blepharoplasty. 김용배 (원진 성형외과) | Facial Trauma Session 6 Trauma care in plastic surgery 좌장: 강동희(단국대) / 명유진 (서울대) 1. Epidemiology of severe trauma patients in plastic surgery 임남규 (단국대) 2. Collaboration team approach in regional trauma center: In view of Plastic surgery 한형민 (아주대) 3. Injury Severity Score in Plastic surgery 강동희 (단국대) | Fat and Stem Cells Session 2 Treatment of Complications after Fat Grafting 김일근, 송승용 1. Medical Treatment : intralesional triamcinolone injection and/or oral prednisolone 윤원영 (멘드클리닉) 2. Ocular swelling after forehead fat grafts 박재우 (바아오성형외과) 3. General treatment for complications of fat graft in eyelid 김성민 (아이미성형외과) |
| 15:10-16:10 | Seoul Breast Meeting 2020 Session 6 Reduction Mammoplasty / Mastopexy / Augmentation Mastopexy 설철환, 오득영 1. Tips and trips in reduction mammoplasty 최규진 2. Glandular reposition techniques in breast ptosis correction 김재우 (페이치 성형외과) 3. Surgical planning for various types of breast ptosis 고주영 | Blepharoplasty Session 7 신용호, 송승환 The newly update of cosmetic lateral canthoplasty a. Primary cosmetic lateral canthoplasty 도연복 (1mm 성형외과) b. Secondary cosmetic lateral canthoplasty 채수욱(청담유 성형외과) c. Reconstruction of lateral canthus 차지훈(지오 성형외과) | Craniofacial Reconstruction 홍중원, 황나현 Neglected Facial Fractures Magda Hutagalung H (Indonesia) 2. Aesthetic Nasal Reconstruction Osman Akdag (Turkey) 3. Surgical planning in microvascular craniofacial reconstruction Bulent Sacak (Turkey) 4. Clinical Trial for the treatment of facial lesions using cultured adipose derived stem cells Yusuke Shimizu (Japan) 5. Fat grafts for rejuvenation in quick aging face patients Donna Savitry | Fat and Stem Cells Session 3 Review of Stromal Vascular Fraction and Its Clinical Uses 국광식, 홍기용 1. Review of stromal vascular fraction cells 홍기용 (일산병원 성형외과) 2. SVF cells for facial rejuvenation 김기태 (태성성형외과) 3. SVF cells for recovery methods of complications 국광식 (이대아 성형외과) |
| 16:10-17:10 | Seoul Breast Meeting 2020 Session 7 My Techniques in Body Contouring 이영대, 전병준 1. Various techniques in abdominoplasty 윤상열 2. Umbilicoplasty 방난석 3. Liposuction on lower extremity using superwet technique 오창현 4. Gluteoplasty with augmentation mammoplasty 이준욱 | Blepharoplasty Session 8 박대환, 최문섭 Video Session a. Extended subbrow lift 이은정 (연세자연미 성형외과) b. Medial epicanthoplasty 오연중 (청주연세 성형외과) c. Double eyelid surgery method for natural double eyelid. 김태오 (브이 성형외과) | Rhinoplasty 정재용, 김민철 1. Correction Rhinoplasty in Asian Patients Charan Mahatumarat (Thailand) 2. Asian rhinoplasty using rib cartilage Teuku Adifitrian (Indonesia) 3. Extranasal graft alternatives in secondary rhinoplasty Sukru Yazar (Turkey) 4. Extracorporeal septoplasty in markedly deviated noses Burak Kaya (Turkey) | Fat and Stem Cells Session 4 Cutting Edge of SVF and PRP Related Treatments 정재호, 진용식 1. Facial rejuvenation with combination therapy of laser, SVFs, PRP, etc. 박재우 (바아오 성형외과) 2. 10 years follow up for facial rejuvenation with SVFs 국광식 (이대아 성형외과) 3. Clinical application of tissue engineering techniques using SVF cells 정재호 (오블리제 성형외과) |
| 17:20-18:20 | Seoul Breast Meeting 2020 Session 8 목재진 Master Class 안희창 Artistry of Aesthetic Breast Reconstruction with Abdominal Flaps | Blepharoplasty Session 9 Master course 좌장: 김용배, 한현호 Severe Ptosis Correction 신용호 (BIO 성형외과) | High Impact Presentations_Craniofacial / Facial Trauma 좌장 황재하, 최재훈(계명대) HIP-25 / Blink reflex changes and sensory perception in infraorbital nerve-innervated areas following zygomaticomaxillary complex fracture- Taeki Kim(Keimyung Univ.) V HIP-26 / Causes and risk factors of necrotizing fasciitis in craniofacial area - Da Woon Lee(Soonchunhyang Univ.) HIP-27 / Functional and histologic analysis of popular techniques for muscle suture in cleft lip and palates- Jaehoon Kim(Keimyung Univ.) HIP-28 / Radiologic analysis of malar arch movement in reduction malarplasty without bony resection- Jae Hee Kim(THE PLUS Plastic Surgery) SOP-13 / Extended indications of expansion orbitotomy in complicated blowout fractures- Tae-Hyun Kong(Yeungnam Univ.) | EP-249 | Atherosclerotic occlusion of perforators in bilateral anterolateral thigh flap elevation | Jae Hee Yoon (Dankook Univ.) |
| EP-250 | The importance of pre-operative evaluation of potential unexpected etiology of secondary lymphedema: Case reports | Ji Won Hwang (Ewha Womans Univ.) |
| EP-251 | A case of large nevus lipomatous superficialis arising from posterior thigh | Seung-Chul Baek (Seoul National Univ.) |
| EP-252 | Clinical experience in use of micronized acellular dermal matrix paste for coverage of lower extremity chronic wound | Jakwang Cho (Inje Univ.) |
| EP-253 | Superficial peroneal nerve injury caused by continuous mechanical pressure on scar tissue of ankle region by dress shoe | Young Bin Yang (The Catholic Univ. of Korea) |
| EP-254 | Nerve autologous graft for sciatic nerve reconstruction post sinovial sarcoma | Héctor Ortiz-Martínez (General Hosp. of Mexico) |
| EP-255 | Case series: Keystone flap with omega variation and sydney melanoma unit modification for coverage of small and moderate-sized defects in anterior lower leg | Yutaek Kong (Sungkyunkwan Univ.) |
| EP-256 | Vastus lateralis and vastus intermedius myocutaneous flap reconstruction for complicated trochanteric pressure sore with extended girdlestone resection | Hyun Jung Ryoo (The Catholic Univ. of Korea) |
| EP-257 | The role of serum creatinine level and estimated gfr in free flap transfer for chronic wound of lower extremity | Jun Suk Lee (Ajou Univ.) |
| EP-258 | Diabetic foot and soft tissue necrosis caused by moxibustion burn injury | Song Hyun Han (Konkuk Univ.) |
| EP-259 | Factors associated with peripheral arterial occlusive disease in patients with diabetic foot | Jung Hwan Um (Konkuk Univ.) |
| EP-260 | The impact for set up of Level 1 trauma center in lower extremity trauma: An experience of last 6 years | Kyung Min Yang (Ajou Univ.) |
| EP-261 | Does primary defatting for flap thinning affect development of perfusion-related complications in free perforator flap reconstruction | Mohammed Alfawzan (Sungkyunkwan Univ.) |
| EP-262 | Dual reinforcement model for pelvic floor reconstruction after pelvic surgery: A combination of synthetic mesh, acellular dermal matrix and musculocutaneous flap | Sungmin Sohn (Korea Univ.) |
| EP-263 | Ulcerative skin metastasis lesion in non-small cell lung cancer | Chan Eol Seo (Konkuk Univ.) |
| EP-264 | A case report of postoperative hypoperfusion-induced ischemic hepatitis after ALT free flap | Si Hyun Kwak (Soonchunhyang Univ.) |
| EP-265 | A case of Marjolin's ulcer in a patient with the burn scar | Young Geun Kim (Inje Univ.) |
| EP-266 | Similar presentation of primary hereditary lymphedema(milroy disease) in siblings with unaffected parents: A case report | Jina Kim (Sungkyunkwan Univ.) |
| EP-267 | A rare variant of Mazabraud's syndrome overlapping with McCune-albright syndrome | Hyeong Rae Ryu (Soonchunhyang Univ.) |
| EP-268 | Technique for skin graft in tendon exposed diabetic foot | Jung Hwan Um (Konkuk Univ.) |
| EP-269 | Exercise-induced pyomyositis of the lower leg in an acute myeloid leukemia patient | Young Bin Yang (The Catholic Univ. of Korea) |
| EP-270 | Vascularized osteofasciocutaneous Fibular Free Flap(FFF) as an alternative in refractory posttraumatic chronic Osteomyelitis(OM) patient: A case report | Bo Min Moon (Gachon Univ.) |
| EP-271 | Novel immediate monitoring system using NPWT for postoperative flap management | Tae Hyung Kim (Soonchunhyang Univ.) |
| EP-272 | Application of hyperbaric oxygen therapy before and after surgery of radiation induced ulcer | Seong Hoon Seol (Hallym Univ.) |
| EP-273 | Reconstruction of knee area using a propeller flap based on a perforator of deep femoral artery after wide excision of pleomorphic sarcoma | Seung Hyun Kang (Chung-Ang Univ.) |
| EP-274 | Reconstruction of extensive soft tissue necrosis of the inguinal area after coronary angiography with the pedicled anterolateral thigh flap: A case report | Seung Hyun Kang (Chung-Ang Univ.) |
| EP-275 | Importance of early detection & management in lower extremity reconstruction using free tissue transfer: Comparison of two case review | Jeongho Kim (Yonsei Univ.) |

|--------|---|--|
| EP-276 | The anterolateral thigh free flap for lower extremity defects that impaired wound healing process | Se Ho Shin (Hallym Univ.) |
| EP-277 | Selection of adequate antibiotic coverage for recurrent cellulitis in chronic lymphedema: Case report and literature review | Seung-Chul Back (Seoul National Univ.) |
| EP-278 | Split thickness skin graft for hypertrophic scar on the donor site of previous skin graft: A case report | Ki Pyo Sung (Inje Univ.) |
| EP-279 | Split thickness skin graft procedure to treat penile necrosis after filler injection: A case report | Ki Pyo Sung (Inje Univ.) |
| EP-280 | Healed donor site of split thickness skin graft used as a free flap donor | Jinmyung Yoon (Inha Univ.) |
| EP-281 | Acral amelanotic melanoma misdiagnosed as fungal infection: A case report treated with dermal matrix matriderm® | Kyu-Il Lee (Korea Univ.) |
| EP-282 | Usefulness of the kerecis™ Omega3 wound matrix for radiation ulcer | Kyong Chan Park (Soonchunhyang Univ.) |
| EP-283 | Pedicled medial sural perforator flap for the knee reconstruction in a patient with recurrent sarcoma after radiation therapy | Taekeun Yoon (Seoul National Univ.) |
| EP-284 | Combined linking perforator free flaps: Choice for limb salvage with extensive lower limb defects | Hyun Wang (Hanyang Univ.) |
| EP-285 | Innovative method of reduction of reconstructed penile using abdominal tubed flap | Hyeon Seok Kim (Chung-Ang Univ.) |
| EP-286 | Schwannoma with a rare feature and misdiagnosed as a hemangioma | Jae A Jung (Hanyang Univ.) |
| EP-287 | Reconstruction of soft tissue defect on lower extremity with medial sural artery perforator flap | Yo-Han Kim (Yonsei Univ.) |
| EP-288 | Extended dermofat graft in revision rhinoplasty with thinned tip skin | Daheui Kim (The Catholic Univ. of Korea) |
| EP-289 | Various septoplasty methods for correction of nasal tip deviation | Gui Rak Kim (Braun Plastic Surgery Clinic) |
| EP-290 | Recurrent epidermal cyst after augmentation rhinoplasty with dermofat graft | Joong Min Suh (Hallym Univ.) |
| EP-291 | Modified dorsal preservation rhinoplasty in asian patients | Takashi Nakao (Tokyo Women's Medical Univ.) |
| EP-292 | The application of ball shaped diced conchal cartilage wrapped with dermofat in tip plasty | Yeong Jin Kim (Soonchunhyang Univ.) |
| EP-293 | Using the one-piece design of spreader graft and septal extension graft in deviated and hump nose correction | Young Geun Kim (Inje Univ.) |
| EP-294 | To maximal harvest and economical use of septal cartilage in rhinoplasty | Cha Soo Kim (Inje Univ.) |
| EP-295 | Validation of the optimal scaffold pore size of nasal implants using the 3-dimensional culture technique | Joon Suk Bae (Soonchunhyang Univ.) |
| EP-296 | Does motivation drive surgical performance? | Tim Buick (Bart and the London Medical School) |
| EP-297 | Effectiveness of en-bloc resection integrated with minor's test in treating axillary osmidrosis | Jamin Hong (Keimyung Univ.) |
| EP-298 | Case report: A subungual exostosis of the second toe | Byungkwon Kang (Seoul National Univ.) |
| EP-299 | Psychologic characteristics of adult neurofibromatosis 1 patients seeking for elective surgery | Dae Won Hong (Univ. of Ulsan) |
| EP-300 | Analysis of factors affecting the complication of subdermal shaving for axillary osmidrosis | Kyubeom Kim (Keimyung Univ.) |
| EP-301 | Recurrent subungual viral wart: A case report | Song Hyun Han (Konkuk Univ.) |
| EP-303 | Patient reported outcome measures after liposuction for upper and lower limb lymphoedema | Valerie Yujin Kim (Ninewells Hosp.) |
| EP-304 | Management of gynaecological cancer related lymphoedema with liposuction | Katie Hilder (Ninewells Hosp.) |
| EP-305 | Epidermal cysts in the keloid scars: 3 cases | Won Seok Oh (Pusan National Univ.) |
| EP-306 | Correction of leaking stomas by silicon block insertion: A case report | Yo Han Oh (Inje Univ.) |
| EP-307 | Feasibility of TRPM8 agonist agent for management of skin graft donor site | Won Jin Cha (The Catholic Univ. of Korea) |
| EP-308 | Successful removal of unknown materials using endoscope after failure of non-incisional method | Ik Kyun Choi (UVOM Plastic Surgery Clinic) |
| EP-309 | Juvenile xanthogranuloma misdiagnosed as an epidermal cyst on ultrasonography | Seung Heo (Myong Ji Hosp.) |
| EP-310 | Comparison of the effectiveness and complication of conventional and versajet surgical methods for osmidrosis using the same two parallel incisions | Bo Min Moon (Gachon Univ.) |
| EP-311 | Diplopia following endoscopic brow lift | Won Ki Kang (Daegu Catholic Univ.) |
